MANOHEET DHANWAT

Data Analyst | AI/ML Engineer

Nashik, Maharashtra • manoheetdhanwat7@gmail.com • linkedin.com/in/manoheet-dhanwat • github.com/manoheetdhanwat • +91 8857826833

PROFESSIONAL SUMMARY

Final-year B.Tech (AI & ML) student with 3 internships, 2 deployed ML projects, and industry certifications from Google Cloud and JPMorgan Chase. Skilled in Python, SQL, Scikit-learn, Power BI, and Flask — with hands-on experience across the full data/ML pipeline from EDA and feature engineering to model deployment. Seeking a high-impact Data Analyst or AI/ML Engineer role where strong fundamentals and a proven build-and-ship mindset can deliver immediate value.

TECHNICAL SKILLS

Languages: Python, SQL, PHP, JavaScript, HTML/CSS

AI / ML: Scikit-learn, Pandas, NumPy, NLP, Predictive Modeling, Feature Engineering, EDA, Supervised & Unsupervised Learning, Model Deployment, Flask

Data Analytics: Power BI, Excel, Statistical Analysis, Data Visualization, Data Modeling, ETL, KPI Dashboards, A/B Testing, Business Intelligence

Cloud & Tools: Google Cloud Platform (GCP), Vertex AI, Generative AI, Apache Kafka, REST APIs, MySQL, Git/GitHub, Jupyter Notebook, Postman, VS Code

INTERNSHIP EXPERIENCE

EdiGlobe | **Artificial Intelligence Intern** | Bengaluru, KA *Sep 2025 – Nov 2025*

- Completed 10+ AI/ML tasks spanning data classification, pattern recognition, and intelligent automation; applied supervised & unsupervised learning techniques to 3 real-world business problems.
- Demonstrated strong analytical thinking and communication within an agile team; contributed documented findings to a shared knowledge base used by 5+ engineers.

Startech Infotech | **AI/ML Intern** | Nashik, MH *Jun 2024 – Jul 2024*

- Engineered 15+ structured chatbot response flows using rule-based AI and NLP; delivered all ML assignments on time with 100% completion rate, earning recognition for technical discipline.

Retrix.in | **Data-Driven Content Editor** | Remote *Sep 2024 – Present*

- Produced 50+ analytics-backed content pieces; deployed AI writing and data tools to cut production time by 30% and measurably improve engagement metrics.

Calibers-InfoTech | **Full-Stack Web Development Trainee** | Nashik, MH *Jul 2022 – Aug 2022*

- Built 3 dynamic web applications in HTML, CSS, PHP, and MySQL; earned MSBTE-recognized certification in full-stack development fundamentals.

PROJECTS

HeartAI – Heart Disease Prediction System — *Python, Scikit-learn, Logistic Regression, Flask, REST API* *2025*

- Engineered an end-to-end ML web application achieving 85% accuracy on the Cleveland Heart Disease dataset (303 records, 13 features); full pipeline: EDA → feature engineering → normalisation → cross-validation → Flask REST API deployment with live frontend.

EduAI – Student Performance Prediction & Recommendation — *Python, Scikit-learn, EDA, Feature Engineering, Flask* *2025*

- Developed a supervised ML system predicting student academic risk from behavioural and academic datasets; added a personalised recommendation engine that maps predicted risk scores to targeted interventions — demonstrating product-level ML thinking.

Fintech Data Engineering Simulation – JPMorgan Chase — *Apache Kafka, REST APIs, SQL, Event-Driven Architecture* *2025*

- Designed Kafka event pipelines, created RESTful APIs, and completed relational DB schema tasks across 3 fintech modules (via Forage); gained practical exposure to distributed systems used at enterprise scale.

EDUCATION

Sandip University | B.Tech – Artificial Intelligence & Machine Learning | Nashik, MH *Sep 2023 – May 2026 (Expected)*

MET League of Colleges | Diploma – Computer Science | Mumbai, MH *Aug 2020 – Jun 2023*

CERTIFICATIONS

• Gen AI Academy 2.0 – Google Cloud Skills Boost (2024) • JPMorganChase Software Engineering Simulation – Forage (2024)
• Power BI for Beginners (2024) • AI Tools Workshop (2024) • Certificate of Internship – Artificial Intelligence, EdiGlobe (2025)
